SUMMARY

Full-stack developer with 4+ years delivering production IT projects end to end — requirement analysis, design, development, testing, deployment and support across multiple verticals.

Builds dynamic, scalable UIs with Angular (8–19), React, TypeScript and Next.js, backed by RESTful services in Node.js and NestJS using connection pooling and clean architecture. Increasingly focused on AI integration — context-aware agents and AI-driven features with LangChain and the OpenAI API.

TECHNICAL SKILLS

Frontend	Angular (8–19), React, Next.js, TypeScript, JavaScript, HTML, CSS, PrimeNG
Backend	Node.js, NestJS, Python, Strapi, REST APIs
Databases	PostgreSQL, MySQL, MongoDB, SQL, Connection Pooling
AI & Automation	LangChain, OpenAI API, Intelligent Agents, NLP, Prompt Engineering
Cloud & DevOps	Azure DevOps, Boards, Repos, Pipelines, Git, Kafka
Auth & Tools	MSAL, Keycloak, RBAC, JWT, Postman, Swagger, Power BI, Agile (Scrum)

EXPERIENCE

Software Developer
Sparity Soft Technology Pvt. Ltd.

April 2022 — Present

- Delivering full-stack web applications across tax, internal tooling, government, energy, education and AI — owning features from requirements through deployment in Agile (Scrum) teams.
- Full-stack delivery across Angular / React / Next.js and Node.js / NestJS.
- Built reusable component libraries, pipes, directives, hooks and services.
- Integrated secure auth (MSAL, RBAC, Keycloak) and RESTful services across production apps.
- Implemented Keycloak SSO with realm/role mapping and token-based session handling.
- Worked with PostgreSQL & MongoDB, plus exposure to Kafka-based event flows.
- Drove AI integration with LangChain and OpenAI — agents and LLM workflows.
